

EXTRA TIME ON YOUR HANDS?

Dear [FirstName] ,

tired of the same old movies and re-runs? What if you could utilize your spare time in a constructive manner and become a Trimble Business Center Expert? What if you could access a full library of training videos and not have to pay a subscription fee. Would you do it?

Thanks to Trimble that opportunity exists and it's easier than you think! There are currently over 25 hours of hands-on instruction in this bundle, several more in additional bundles, and there are more to come. The video below will explain more about how to register...

About the Library

The library was created by Mike Carris, Software Representative at Trimble Inc., and contains videos for all levels of experience: beginners, intermediate, and advanced users. Titles in the first bundle include:

- CEC Common File Types
- Trimble Business Center Quick Tips
- Trimble Business Center Site Data Prep and Modeling 2020
- Trimble Business Center Site Design
- Trimble Business Center Site Takeoff 2020

Additional bundles are available once you are logged in and more will be added soon.

How to Sign Up for the "Become an Expert Series"

The great news is, anyone can use [this link](#) and **gain access for free!**

Existing Trimble Library User

1. **Go To:** [Become an Expert Bundle](#)
